more than packaging

Tailor-made global logistics solutions

Outsourcing your warehouse and logistics processes, allows you to focus on the really important tasks in your company such as R&D, regulatory, manufacturing and selling. At the same time, you can rest assured that your medical products arrive at your customers quickly, safely, reliably and at the right time.

Therefore, you should leave your logistics tasks to the specialists. We have many years of experience in the management of logistical processes for medical products, and look forward to working with you to develop a partnership-based, cost-effective solution which meets all regulatory and legal requirements. We flexibly respond to you or your customers regional or international logistics needs to ensure customer satisfaction.

Our expectation of quality does not tolerate compromise. In order to ensure our high quality standards, our employees are regularly trained and tested on all work processes. We are passionate about delivering quality service and meeting our customer's high expectations.

From certified storage to worldwide delivery

INVENTORY RECEIPT

All products and packaging materials are subjected to a product-specific inventory receipt inspection. This inspection also includes the functional testing of electronic devices to ensure that possible quality problems are detected and eliminated at an early stage.

STORAGE

All products are stored in our EN ISO 13485 certified and GSP-compliant ("Good Storage Practice") environment. This includes permanent monitoring of temperature and humidity with calibrated measuring instruments. The entire storage area is also monitored and protected for pest infestations. All control measures are recorded and archived. All inventory movements can also be booked and tracked directly in our inventory management system. This ensures the traceability of your products at all times. Statistics and evaluation details are available on request.

CUSTOMER ASSISTANCE

We create and archive all of the necessary documents to process your orders and deliveries. This includes **quotations, order confirmations, delivery notes, invoices, reminders, supplier orders, and customs declarations**. We continuously update and maintain your article, customer and supplier master data to make sure your data is always accurate and up-to-date.

LOANER SET MANAGEMENT

Time is money – the fast and reliable check-in and delivery of your loaner sets have top priority. This quick processing of your orders helps keep your capital commitment as low as possible. Upon arrival to our facility, we audit and inspect your kits, and perform a professional functional test of the instruments. Following our inspection and testing, all kits are then replenished and immediately ready for the next order. Your kits will be professionally maintained and arrive in excellent condition for your customer. We can also offer cleaning and sterilization services as well as storage of your sets.

SHIPPING

Quick processing of your customer orders is required for success. Each customer order is immediately picked, packaged and shipped the same day. Shipping to sensitive countries is routine for us. As an approved exporter, we handle the complex customs documentation for our customers. We will gladly provide you with our preferred shipping services to help make shipping more cost-effective.
